To whom it may concern,

Having completed a one day strategic sales schooling course we would recommend the course to anyone .we found Andrews to be a really nice guy and he explained everything very well .His sales experience really shone through in his style of teaching .We believe the techniques he teachers can be adapted to any trade or business.

The course is enjoyable , informative and leaves you going over situation in your head were you could of used his technique in the past to gain more work or business.We believe the questioning skills we have learnt will be a great benefit to our business.

We would like to thank you for this eye opener !

Kind regards

Lee Eaton & Gary Edwards
